

Unlock the full potential of your employees and increase profits

With Mentalytics Focus training and Analytics platform.

Focus training through innovative use of EEG-technology. Improved results after 30 days of training 10 min per day.

1. Project setup

Requirements for project

- 1 Administrator**
Manages analytics.
- Training facility**
Train & charge headbands.
- Devices to train on**
Computer, tablet or mobile.
- Allocated time**
15 min/day, per user.

Pro tip: Allocating sessions at varying times of shifts can gather a wider range of data and insights – for an admin to draw conclusions from and take actions on.

Mentalytics setup

- Download app**
Through link.
- Admin account**
All set up, ready to use.
- Focus headbands**
Custom amount of units.
- 1h Onboarding**
To setup your project.

Pro tip: Have a rough idea of which production lines and which people that should be included in the project before the onboarding session.

2. Using Mentalytics

Analytics for administrators

- Custom structure**
Mimic your org. structure.
